

T8 and T12 Commercial Channel Strip Fixtures

General Description: The **CC Series** strip is a basic all-purpose commercial fixture with a wide range of applications. Unit is assembled locally to meet job specifications for voltage and efficiency. All units are UL listed. Fixtures are designed for surface, stem or chain hanging and may be installed in continuous rows or as individual units. Channels are die formed heavy gauge cold rolled steel. Fixtures are available in T8 and T12 and T12HO, single and multi-lamp configurations. **CC Series** Fixtures may be customized to meet any specific requirement.

Ballast Specifications: Standard fixtures utilize instant start electronic ballasts. All ballasts carry a five year warranty. Universal voltage (120v -277v) ballasts are standard on all T8 fixtures. T12 fixtures require voltage specification (120v or 277v). All T8 ballasts have a min. ballast factor $>.87$ as ANSI specified, and a min. power factor $>98\%$. All ballasts have input frequency 50/60Hz, low THD: $<10\%$, and minimum starting temperature of 0 F(-18 C). T12HO fixtures have min. starting temp. -20 F. All ballasts are UL listed, and meet ANSI C82.11 specifications for electronic ballasts. High light output, low light output, rapid start and programmed rapid start ballasts available.
