

## Fluorescent Lighting Retrofit Kits

### Retrofit Kits

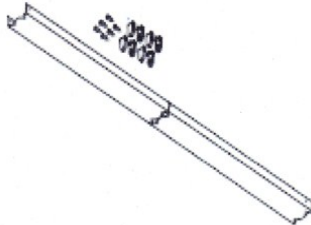

#### SK Single-Piece Retrofit Kits

SK Strip Retrofit Kits are a quick install solution for converting T12 and T12HO strip fixtures to 2-Lamp and 4-Lamp T8 strips. Pre-wired ballasts are mounted directly to the 8ft channel retrofit pan.

All prep work and wiring is done in our UL listed shop. Lightweight aluminum construction ensures easy handling.

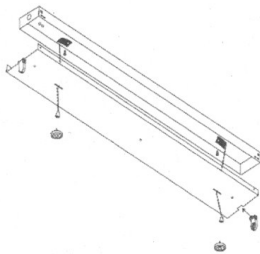

#### SKMP Reflector Multi-Piece Retrofit Kits

SKMP Reflector Kits are a quick solution for converting T12 and T12HO strip fixtures to 2-Lamp and 4-Lamp T8 strips. Pre-wired ballasts are mounted directly to the 8ft channel retrofit pan.

Individual components and pre-wired ballast kits are available. All prep work and wiring is done in our UL listed workshop. Lightweight aluminum construction ensures easy handling.

#### SKBC Single Piece Ball and Chain Retrofit Kits

SKBC Reflector Retrofit Kits are universal, single piece 8ft ball-and-chain connection kits.

SKBC Series ballast pan covers have knockouts for 2-Lamp, 3-Lamp and 4-Lamp configurations. Ball-and-chain connection brackets and light weight aluminum ballast pan make strip conversion easy.

***All Retrofit Kits are standard with White aluminum reflectors when included.  
Where applicable, Enhanced aluminum reflector options are available.***
